

HIGH PERFORMANCE THAT CAN BE USED EVEN IN SHAVED ICE SHOPS

Fast output, professional production machine

CIM-309WT

SPECIFICATION

Output: 600cc / min

Drum Width: 18cm

Power Consumption: 1600W

Refrigerant: R-404a

Cooling Method: Water - cooled

Appearance Material: Stainless Steel

Input Tube Material: Stainless Steel

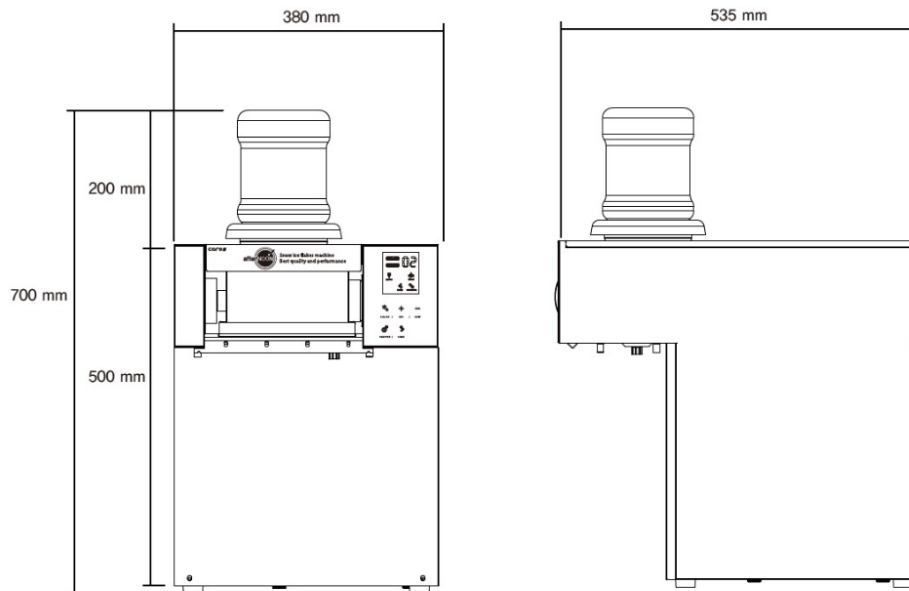

Inlet Method: Natural Pressure Discharge Method (Serial Connection)

Plug Type: Separate (Socket Type)

Weight: 50kg (Body)

Size: 38 x 54 x 50 (cm)

PRODUCT DIMENSION

LCD Smart Control

Smart with self-diagnosis function and error code display

Open drum

Exposed drum checks icing real time & cleans

Proven icemaking drum technology

Maximizes performance and makes durability more durable

Sensing Control Function

Measure the temperature of coolant, automatically coolant flow rate

Drum speed adjustment

1 ~ 5 levels of adjustment to perfectly fine ice
